

BROOKLYN NEWS. NEW JERSEY.

JOHN MARIAL SHOT AT BOYS.

Two Policemen Had a Hard Fight with the Junk Dealer.

Factory Girl's Narrow Escape from a Bullet.

John Marial, a junk dealer of 1 Prince's court, was held for examination by Justice Walsh in the Adams Street Police Court, Brooklyn, this morning.

He was charged by Charles Coles, aged ten, with assault in the first degree.

Marial is said by the police to be a hard customer, and last night after firing six shots at the complainant, it took two policemen to overpower and arrest him.

At 6 o'clock last night, Charles Coles and a number of other boys were playing in front of Marial's junk shop, and the latter, without warning, suddenly appeared among them, revolver in hand.

When the boys scattered in all directions Marial fired six shots after them.

Four of the shots passed through the girls' dressing-room in Thompson and North Street, and one of them, a girl named Mary Smith, of 1 Prince's court, was wounded in the leg.

One of the boys, a boy named John, of 1 Prince's court, was wounded in the leg, and another boy, a boy named John, of 1 Prince's court, was wounded in the leg.

Meanwhile, Patrolmen Harrington and Mulally, who were on duty in the neighborhood, saw the junk dealer firing his revolver.

When they reached the junk shop, they found Marial firing his revolver at the boys.

THE LONG ISLAND HORROR.

Grand Jury Investigating the Recent Railroad Disaster.

LONG ISLAND CITY, L. I., Sept. 13.—The investigation into the Berlin disaster on the Long Island Railroad, in which sixteen persons were killed and more than fifty were injured, was begun by the Queens County Grand Jury, now in session in this city, this morning.

The corridors of the Court-House are thronged with railroad men, who have been subpoenaed as witnesses. Friends are interesting themselves on behalf of Robert J. Knott, the townsmen of block 4, at the scene of the wreck, on whom it is sought to throw the entire blame.

When seen in his cell this morning by an "Evening World" reporter, Knott said he might decline to answer questions put to him in the Grand Jury room. Acting on this advice of his lawyer, he said, he would not give his reason of the accident until formally arraigned.

"You can say this much for me," he added, "that when my story is told a jury will find me innocent of any blame on the whole affair. The responsibility for it may rest on other shoulders than mine."

Late this afternoon or early to-morrow morning the Grand Jury, accompanied by District-Attorney Fleming, will visit the scene of the accident. The latter says that no indictments may be expected for several days.

With REVOLVERS AND CLUBS.

Four Brooklynites Indulge in a Lively Street Row.

Five shots were fired in a fight between four men at Atlantic and Troy avenues, Brooklyn, shortly after midnight this morning. When the police arrived they found the combatants rolling on the ground, and beating each other with clubs and the butts of their pistols.

At the station-house the fighters described themselves as Bernard Logan, fifty years old; Henry Logan, fifty-three; John Logan, fifty-five; and James Logan, fifty-seven. They were all natives of Ireland, and were living at 162 Atlantic avenue, and Thomas Farrell, thirty-one, of 108 Atlantic avenue.

The Logans have not been on good terms with their neighbors for a long time. The brothers drank enough at last night to get into fighting with the other men.

When the fight broke out, the men were armed with clubs and pistols. The police arrived and the men were taken to the station-house.

BUILDING LAW VIOLATED.

Frame Blacksmith Shop Erected on Douglass Street.

People who live in Douglass Street, between Fourth and Fifth avenues, Brooklyn, are complaining bitterly because Thomas Carr has been allowed to put up a wooden structure about the middle of the block, which is used as a blacksmith shop by Thomas Paul.

According to the Brooklyn ordinance no frame building can be erected within the fire limits. When Mr. Carr first began to build in July, several property owners made a complaint to the Commissioners of Buildings. The Commissioners promised to investigate the matter, and ordered work to be stopped.

It was found that the law was being violated. The new structure is a long, low, one-story building, eighty feet in depth, with a frontage of twenty feet on Douglass Street. The building is used as a blacksmith shop.

Among those who have petitioned the Commissioners to have the building removed are Mrs. Martin Boyle, who owns an adjoining building at 381 Douglass Street, and James and David Dow, the owners of six flat-houses in the same street.

While the building was going up, Mrs. Boyle says, Blacksmith Paul boasted of his pull with the city officials and said he could get a permit to put up any sort of a building he chose.

Paul says, used to show horses for the Brooklyn Street Cleaning Department and knew a lot of politicians. The contractor who put up the wooden shed is N. Ryan.

"He is also a politician," said Mrs. Boyle, who claims to have a great deal of influence at the City Hall. We tried our best to get the Building Commission to stop the construction of this shed.

"Commissioner Pickett, when he went before the Mayor about the case, admitted before all of us that Mr. Carr had no permit to erect a wooden building and that it was clearly a violation of the law."

"He said he would order the building to be removed, but that this is the last we ever heard of it. Paul has been occupying the building for six weeks, and Ryan has put up his horse right against my front wall."

"I called at the Corporation Counsel's office to see about the matter, but it has now been in his hands for three weeks. He was told that the Corporation Counsel was taking his vacation, and that he had been so busy in the office since that matter had been referred to them that they had no time to attend to it."

"Why, Mr. Carr has not even secured a permit to put up that shed. My husband, who is a blacksmith, tried to get a permit last year to put up a frame building, but they would not give him one."

"That shows what a political pull will do," said Mrs. Boyle. "My husband, who is a blacksmith, tried to get a permit last year to put up a frame building, but they would not give him one."

"That shows what a political pull will do," said Mrs. Boyle. "My husband, who is a blacksmith, tried to get a permit last year to put up a frame building, but they would not give him one."

STRUCK WITH AN IRON BAR.

Stranger Accosts a Man Returning Home at Belleville, N. J.

NEWARK, N. J., Sept. 13.—John McClure, an engineer in the employ of the Hagan hat factory, while in Belleville on his way home last night, was accosted by a well-dressed stranger, who tried to get into a conversation with him. McClure passed on, but the stranger followed and dealt McClure a blow over the head with an iron bar, screaming and the stranger ran away.

Within the past week several persons have been met by the stranger. It is believed that the man is a professional burglar. The police are trying to find him.

TOOK NUX VOMICA TO DIE.

Richard Muller Ends His Life in Jersey City.

Soon after 10 o'clock to-day Richard Muller, aged twenty-seven years, furniture dealer near the Five Corners, Jersey City, committed suicide by swallowing a two-ounce bottle of nux vomica at his residence, 83 Oakland Avenue.

The present complaint by Dr. Bidwell, was procured at P. H. Levering's drug store on Summit Avenue, and the dose prescribed was three to five drops after meals. No cause for the suicide is known.

Nothing was done, however, and the building went up in spite of the fact that the attention of both Mayor Brady and the Corporation Council was called to the matter.

The new structure is a long, low, one-story building, eighty feet in depth, with a frontage of twenty feet on Douglass Street. The building is used as a blacksmith shop.

Among those who have petitioned the Commissioners to have the building removed are Mrs. Martin Boyle, who owns an adjoining building at 381 Douglass Street, and James and David Dow, the owners of six flat-houses in the same street.

While the building was going up, Mrs. Boyle says, Blacksmith Paul boasted of his pull with the city officials and said he could get a permit to put up any sort of a building he chose.

Paul says, used to show horses for the Brooklyn Street Cleaning Department and knew a lot of politicians. The contractor who put up the wooden shed is N. Ryan.

"He is also a politician," said Mrs. Boyle, who claims to have a great deal of influence at the City Hall. We tried our best to get the Building Commission to stop the construction of this shed.

"Commissioner Pickett, when he went before the Mayor about the case, admitted before all of us that Mr. Carr had no permit to erect a wooden building and that it was clearly a violation of the law."

"He said he would order the building to be removed, but that this is the last we ever heard of it. Paul has been occupying the building for six weeks, and Ryan has put up his horse right against my front wall."

"I called at the Corporation Counsel's office to see about the matter, but it has now been in his hands for three weeks. He was told that the Corporation Counsel was taking his vacation, and that he had been so busy in the office since that matter had been referred to them that they had no time to attend to it."

"Why, Mr. Carr has not even secured a permit to put up that shed. My husband, who is a blacksmith, tried to get a permit last year to put up a frame building, but they would not give him one."
